

Brainstorming & Idea Prioritization Template

Date	7 July 2026		
Team ID	XXXXXXXXXX		
Project Name	A Comprehensive Measure of Well-Being		
Maximum Marks	3 Marks		
7 July 2026			
SWUID2026221619			
A Comprehensive Measure of Well-Being			

Step 1: Brainstorm and Idea Listing

Each team member listed out ideas without judgment to explore all possible directions for the project.

S.No	Team Member	Idea / Suggestion	Category	Group No.
1	Rahul Kancharla	Predict HDI Score using Linear Regression	ML Prediction	1
2	Boddu Siri	Build Flask web app for user input & output	Web Development	1
3	Valluru Pujitha	Use Seaborn heatmap to visualize feature correlations	Data Visualization	2
4	Annavarapu Triveni	Implement label encoding for country field	Preprocessing	1
5	Boddu Siri	Add country dropdown in the prediction form	UI Design	2
6	Vijaya Naga Varshitha Kammili	Deploy model using Pickle serialization	Model Deployment	1
7	Boddu Siri	Show HDI category (Very High/High/Medium/Low) in result	Output Feature	1
8	Valluru Pujitha	Use strip plots for EDA visualization	Data Visualization	2

Step 2: Idea Prioritization

Rate each grouped idea on feasibility and importance, then select the final idea to move forward with.

Group No.	Final Idea	Feasibility	Importance	Priority	Selected
-----------	------------	-------------	------------	----------	----------

1	HDI Predictor using Linear Regression + Flask Web App	High	High	1	Yes
2	EDA Visualizations (Heatmap, Strip Plot, Distplot)	High	High	1	Yes
